

# Learning through Music

## Author:

Prof. Dr. EE. Experienced manager of large projects and companies across Europe and Asia. Author of several books and publications on project management. Teaches at several Universities

## Reviews:

I like the practical tips and the nice idea for keeping them in mind: a story and music titles. A good way for managing oneself and the challenges of a day.

Malaysia

Great Jazz combined with a very useful Project Management guide! I never thought I'd use Project Management in my daily live, but with this booklet, everybody can do just that.

## Practical tips, Love Story and Jazz

presented in a very compact, innovative way. Special attention paid to easy understandable language and explanations.

A story of a relationship of a young couple is built around jazz music titles. Episodes from the story illustrate the authors' tips on project management.

## Contents:

- Systematically covers all aspects of project management, particularly human factors.
- Planning and buying, assessing risk and change, conflict resolution, team handling, leadership and self management
- Scheduling along the L-Timer®. Basic bibliography.
- Closely linked internet page [www.MyDreamProject.com](http://www.MyDreamProject.com) with profound extension and vast literature.
- Narrative storyteller and all jazz music pieces recorded and enclosed as CD.
